ProLiant Curriculum Redesign—Highlights

Here are some highlights of our newly redesigned curriculum for HP ProLiant/BladeSystem, SIM/Insight Control, and HP CloudSystem.

- *New SIM/Insight Control course options.*
 - **UPDATED!** *HP Systems Insight Management (HK756S).* This 2-day course is an updated/condensed version of HE644S (*HP Insight Control: Managing and Monitoring with HP SIM*). See *Featured Courses* below for additional course info.
 - **NEW!** *HP Insight Control Advanced Topics (HK757S).* This 3 day course covers all the new features and enhancements in Insight Control. It is recommended for both new customers and customers who attended the prior version of HE644S. See *Featured Courses* below for additional course info.
 - *Combo course—HK756S + HK757S = UPDATED HE644S (HP Systems Insight Manager Essentials and HP Insight Control Advanced Topics Combo).* New BladeSystem and Insight Management customers will want to check out the new 5-day HE644S 'combo course.' HE644S combines the HK756S and HK757S courses.
- **UPDATED** *HP BladeSystem Administration: c-Class (HE646S).* This popular class has been updated and redesigned. It now includes content from *HG813S (HP BladeSystem Hardware Installation and Configuration)*.
- **COMING SOON!** *HP Power Management (HK760S).* A number of features have been added to the HP Insight software family to help clients monitor and control their power and heating/cooling costs. This course teaches students about new power management features and their optimal use.

If you have questions about which course is right for you, please contact your HP Education Consultant.

Featured Courses

HP Systems Insight Manager Essentials HK756S

NEW! This 2-day course is designed for students new to HP Systems Insight Management. The course equips students with the skills and knowledge to install and configure HP Insight Control integrated management solution for physical and virtual servers. Students learn to install and configure Insight Control, and how to proactively manage system health through remote management tools. The course also covers the integration of various options within HP Systems Insight Manager: ProLiant Support Pack version control.

Cost: \$1600 USD
\$1760 CDN

HP Insight Control Advanced Topics HK757S

NEW! This 3-day course equips students with the skills and knowledge to configure and use several advanced features of HP Insight Control integrated management solutions for physical and virtual servers. Students learn to configure Insight Control and to proactively manage system health through remote management tools. The course focuses on the integration of various options within HP Insight Control: power management, performance monitor, virtual machine management and server migration.

Cost: \$2400 USD
\$2640 CDN

HP BladeSystem Administration: c-Class HE646S

UPDATED! This 3-day course covers HP BladeSystem administration and management. Portfolio overviews ensure that students understand components and solutions. Students configure HP Insight Control tools including HP Systems Insight Manager and HP Rapid Deployment tools. Through hands-on labs, students learn to configure, manage, and monitor components for: HP Onboard Administrator, HP Integrated Lights-Out 2, HP BladeSystem instrumentation, performance monitoring and Blade Server deployment. Virtual Connect discussion includes examples of configuration with simple network setups.

Cost: \$2400 USD
\$2640 CDN

Insight Foundation HE643S

UPDATED! This 2-day course provides training on the HP Insight Foundation suite of products that focus on single-server management. HP Insight Foundation for ProLiant servers provides management solutions that simplify server installation, deployment, configuration, and maintenance. Students receive an overview of the product suite including tools that help set up, monitor and update ProLiant ML, DL and BL series 300 and greater servers. Many practical hands-on lab exercises are included.

Cost: \$1600 USD
\$1760 CDN

HP Education Services

Microsoft Training for ProLiant Administrators

Microsoft Windows Server 2008 Training from HP

You already trust HP Education Services to provide training for your ProLiant hardware and Insight software. Did you know that HP Education Services is also a Microsoft Learning Competency Partner—offering a complete portfolio of Microsoft Official Curriculum technical training classes?
